

Resolution 14-111

RESOLUTION AUTHORIZING ENDORSEMENT OF
APPLICATION FOR TREATMENT WORKS APPROVAL (TWA-1)

County College of Morris

214 Center Grove Road
Block 81, Lots 1 & 6
Township of Randolph

WHEREAS, an application for Treatment Works Approval has been submitted by the Township of Randolph which proposes the extension of sewers to serve the discharge from an existing 16,000 sf office building located in Randolph Township that is currently utilizing a septic system, for review by the Rockaway Valley Regional Sewerage Authority (RVRSA), which extension project is more particularly described in the Treatment Works Approvals Permit Application Form (TWA-1), attached hereto and made a part hereof; and

WHEREAS, the New Jersey Department of Environmental Protection (NJDEP) presently requires the certification of the 201 Sewerage Agency, as well as the certification of the owner of the sewerage treatment facility, that its treatment system contains sufficient capacity to accept the additional flow, which would emanate from the sewer extension proposed in the said application; and

WHEREAS, the project site contains delineated wetlands and proposes construction of an access road and sewer line through a portion of wetlands, pursuant to a freshwater wetlands permit and flood hazard area permit issued by the NJDEP on November 5, 2014. These NJDEP approvals authorize the construction of an access road from Route 10 to College Avenue, as well as, associated improvements on the project site in the 300-foot riparian zone of an unnamed tributary to Mill Brook on the campus of the County College of Morris, for the construction of the proposed access road and sewer line. A waiver of the RVRSA's ESA Special Grant Condition No. 4, applicable to undeveloped property, is not applicable to this project, which consists of an existing structure and does not contemplate the construction of a new sewage generating structure upon a vacant parcel of land; and

WHEREAS, pursuant to RVRSA's planning estimates the gallonage required to service the proposed project is in the amount of 1,408 GPD; and

WHEREAS, the gallonage required to service the project pursuant to the calculation of the NJDEP is 1,600 GPD; and

WHEREAS, the Township of Randolph is required to endorse the project; which it has done by Township of Randolph Resolution 277-14 dated October 23, 2014; and

WHEREAS, RVRSA is desirous of facilitating Randolph's application for sewer service extension.

NOW, THEREFORE, BE IT RESOLVED by the Rockaway Valley Regional Sewerage Authority as follows:

1. There shall be allocated from RVRSA's "First Come/First Serve" category, gallonage in the amount of 1,408 GPD.
2. JoAnn Mondsini, Executive Director of the RVRSA is authorized and directed to execute the Treatment Works Approval (TWA-1 Application) Form WQM-003 entitled Endorsements at subsection C subject to the following conditions:
 - A. That subsection C Certification by Wastewater Treatment Facility Owner shall not be executed, however, a notation shall be inserted to refer to an addendum attached which includes a revised certification which provides as follows:

I (we) certify that the treatment plant is currently complying with its conventional and non-conventional NJPDES permit requirements (see N.J.A.C. 7:14A-22.17 (b)-(d), flow percent removal and toxicity requirements excluded from this certification) as determined by a rolling average of the three most recent monthly discharge monitoring reports that were required to be submitted to the Department as of this date, and based upon my (our) assessment of all information pertinent to this permit request, is anticipated to continue to do so with the additional flow from this project.

- B. That this approval explicitly excludes connection of vacant lot(s), which encroach upon any environmentally sensitive areas (ESA) pursuant to Special Grant

Condition No. 4, federal project C340389-04-2, effective November 29, 1983. The sewer connection restriction of the grant condition remains in effect for any future construction. Any modifications to the project proposing disturbance to wetlands or floodplains shall require submission of an application to the RVRSA to thereafter be submitted to USEPA for a revised determination.

- C. This approval is expressly conditioned upon compliance, by the Applicant, with any relevant provisions of the Highlands Preservation and Planning Act, or any rules or regulations issued pursuant thereto, including obtaining all relevant approvals and consistency determinations, if any.
- D. That any connection from a non-domestic source is subject to the RVRSA's industrial pretreatment program regulations. The applicant shall first obtain a clearance form the RVRSA's pretreatment program prior to seeking for obtaining the necessary permit(s) for connection to the RVRSA's local/regional conveyance system.
- E. That the qualified property owner(s) shall obtain the necessary permit(s) for sewer connection(s) to the RVRSA system, in connection therewith and shall comply with the requirements of other governmental entities having jurisdiction.
- F. That the sewer mainline and each of the building lateral to be installed in connection with the project shall be subject to inspection(s) by the RVRSA.
- G. That this endorsement shall expire automatically unless the attached application is filed with the NJDEP within 60 days of the day of the adoption of this Resolution. Evidence of submission shall be submitted by the Applicant to RVRSA in order to satisfy this requirement.
- H. This approval is subject to compliance with revised Service Rules of the RVRSA, and the payment of the appropriate fees and/or charges of the RVRSA including, but not limited to those set forth at Section 4.03 (3) Revised Service Rules of the RVRSA, and payment of the appropriate fees of any other governmental authority having jurisdiction.

- I. In the event that the allocation remains unconnected to the RVRSA System for longer than eighteen (18) months from the date of this resolution, then payments shall be made to the RVRSA representing the debt service and capital cost funded by the users for the prior year—calculated on the number of gallons per day allocated but unconnected. Such payment shall be made each year until the allocated gallonage is connected or terminated.

- J. The approval of the use of NJDEP's gallonage determination is made under protest and for the sole purpose of approving the TWA-1 sewer extension application and shall not affect in any way gallonage allocated for RVRSA's planning purposes.

- K. This endorsement is further conditioned upon the submission, to the RVRSA, of the NJDEP issued Treatment Works Approval. A permit to connect to the RVRSA may not be issued until such time as a copy of the Treatment Works Approval is submitted to RVRSA.

I hereby certify that this Resolution was adopted at a meeting of the Rockaway Valley Regional Sewerage Authority held on December 11, 2014

On motion of Glenn Corbett

RESOLUTION NO. #277 -14
AUTHORIZING THE TOWNSHIP MANAGER TO ENDORSE THE TREATMENT
WORKS APPROVAL APPLICATION TO NJDEP FOR THE CONSTRUCTION OF A
SANITARY SEWER MAIN EXTENSION AT THE COUNTY COLLEGE OF
MORRIS, ON ROUTE 10, RANDOLPH, NJ

WHEREAS, the County College of Morris, (the "Applicant") has requested endorsement of a Treatment Works Approval (TWA) for the construction of a sanitary sewer main extension on Route 10 in Randolph; and

WHEREAS, the permit is to convey the effluent from one property with a total design flow of 1,600 gallons per day through the main extension system into the Jackson Brook Interceptor to the Rockaway Valley Regional Sewerage Authority (RVRSA) treatment facility.

WHEREAS, the applicant has requested that the Township endorse said application to the New Jersey Department of Environmental Protection (NJDEP); and

WHEREAS, the application must be submitted to the New Jersey Department of Environmental Protection to obtain a TWA approval for the construction of the gravity sewer main for this project; and

WHEREAS in order for the New Jersey Department of Environmental Protection to consider the application, the same must be endorsed by the Township among others; and

WHEREAS the Township desires to authorize the execution of the endorsement of the said application,

NOW, THEREFORE, BE IT RESOLVED, by the Township Council of the Township of Randolph, County of Morris, State of New Jersey;

1. The Township Manager is hereby authorized and directed to execute the appropriate endorsements for the Treatment Works Approval, together with other appropriate officers and employees of the Township of Randolph, and hereby authorized to take all actions necessary to effectuate the purpose.
2. This resolution shall take effect immediately.

CERTIFICATION

I, Donna Luciani, Clerk of the Township of Randolph, do hereby certify this to be a true copy of a resolution adopted by the Mayor and Council at a meeting held on October 23, 2014.
